## Message

*Roland Institute of Pharmaceutical Sciences eulogises a legendary saga of success; comprising of stories of glory and crafted by tales of teamwork. As they say a tree falls with huge noise, whereas a seed grows with no sound; similarly destruction has noise, but creation is quiet. We were created silently with the visionary ideas seeding the mind of our beloved Director Dr J Surya Rao. And our ongoing chronicle of triumph is making the right noises reverberate in the echelons of science. With the devotional allegiance of founder principal Dr M E Bhanoji Rao and the diligent dedication of incumbent principal Dr B V V Ravi Kumar coupled with whole hearted commitment of all the teaching & non teaching staff, we have been making giant leaps in the Pharma arena. Our history is depictive of enviable and awe inspiring accomplishments thanks to the riveting achievements of our students since inception of the institute. We fervently hope and firmly believe to monopolize the pharmacological domain by showcasing the scientific might of our bustling brains to the world in years to come. Welcome all new comers to this illustrious institute.*
